1

## Voice Recording

Voice Recording can be used for any car abnormal situations to assist anti-theft.

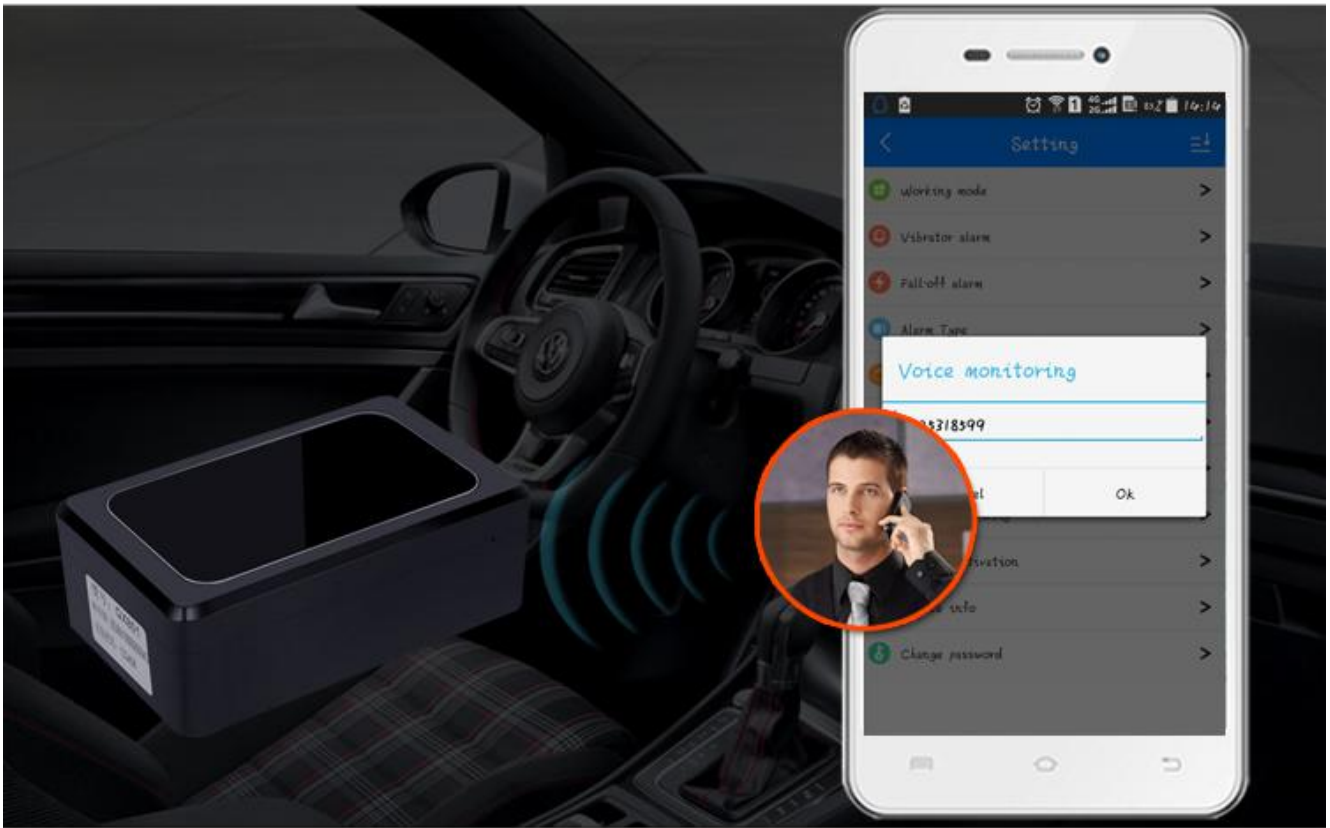

2

## Voice Monitoring

Voice Monitoring can be used for listening sounds around GT08 after inputted your phone number to APP and GT08 called your phone back to let you pick up. Your phone side sounds won't be heard by GT08 side.

3

## Dual Positioning Mode

Sensitive MTK chip is used for GT08 to ensure GPS+LBS dual positionings are accurate and stable.

# 4

## Fall-off Alarm

Alarm will be sent to APP after GT08 fell off from magnetically attached place.  
(Alarm type can be set as: 1. SMS 2. Call 3. SMS+call)

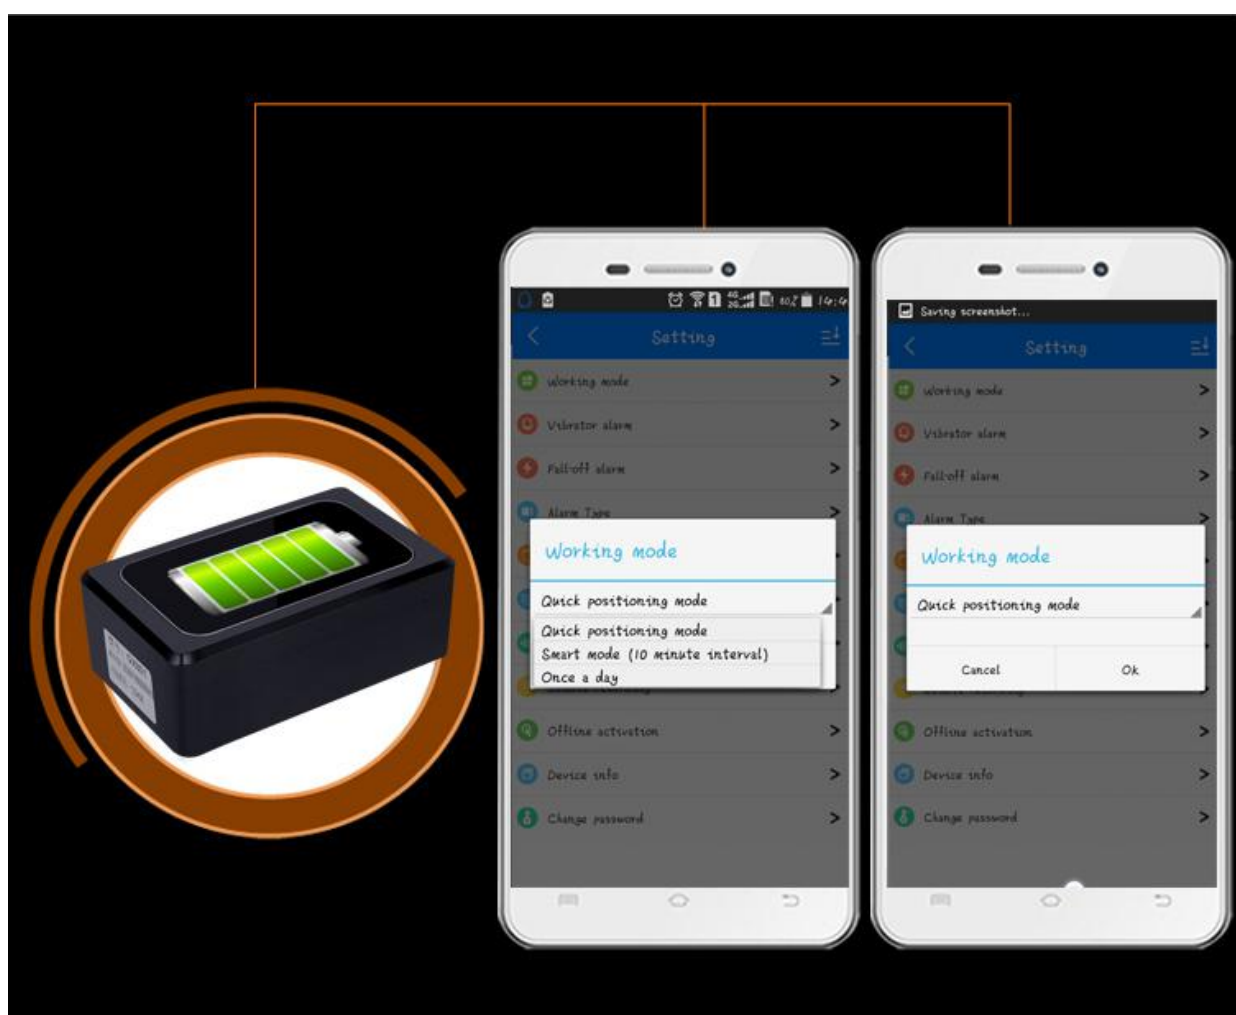

# 5

## Super Power-saving

High quality internal rechargeable polymer battery with capacity 20,000 mAh is used for GT08 for 1 year stand-by under mode of 1 position per day.

3 positioning modes can be used:

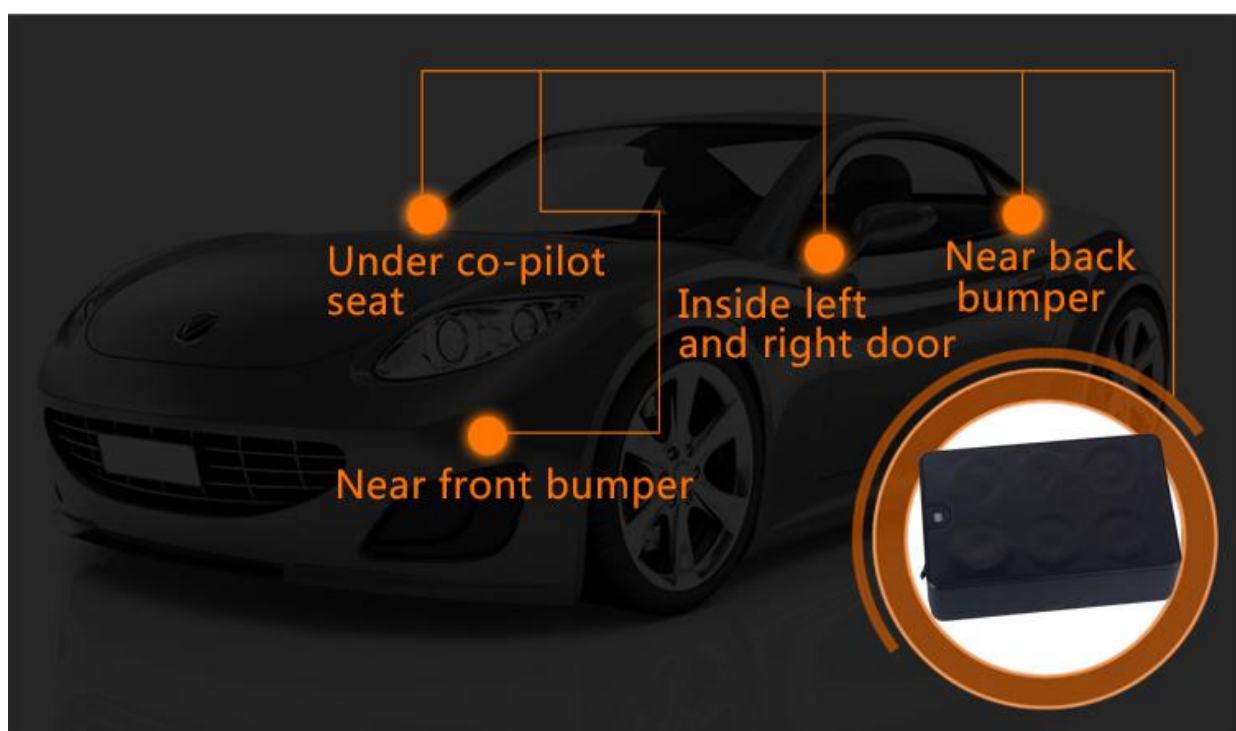

1. Super power-saving: 1 position per day.
2. Smart Mode: 1 position per 10 minutes.
3. Quick Positioning Mode: 1 position per 30 seconds.

6

## Magnetic Feature

Industrial strong magnetic is used for GT08 to let it attach on iron places.

7

## Water and Dust Resistance

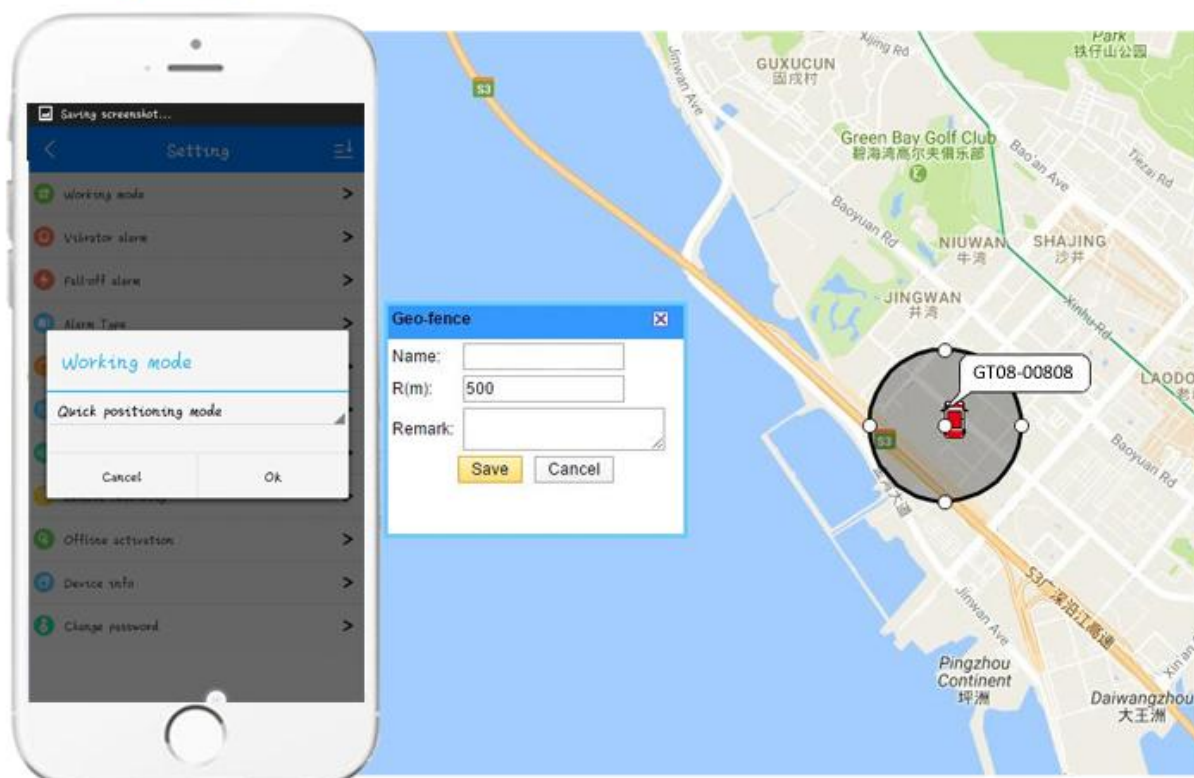

IP67 design and high-precision housing are adopted for GT08 to let it stably work in dusty and wet conditions. (Soaking isn't supported.)

8

## Geofence

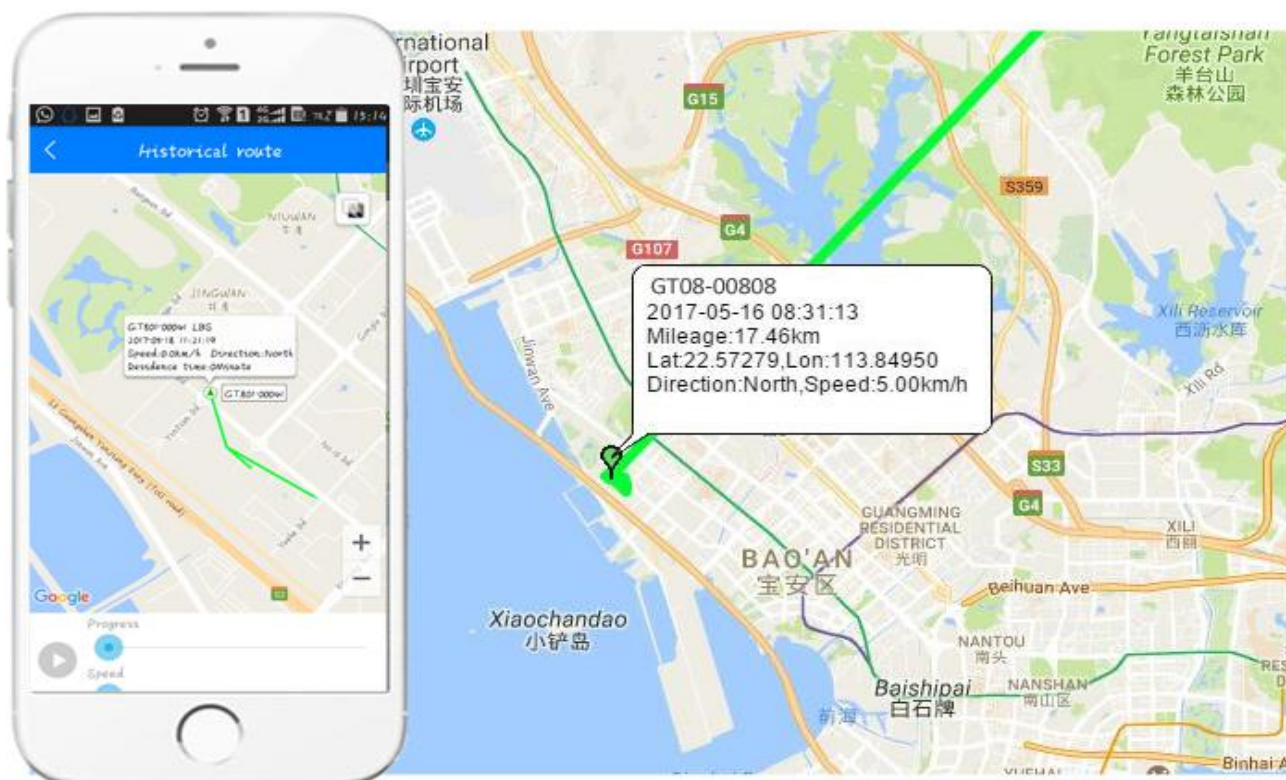

A round range with 100-5,000 meters radius can be set for alarming if GT08 got out or in.

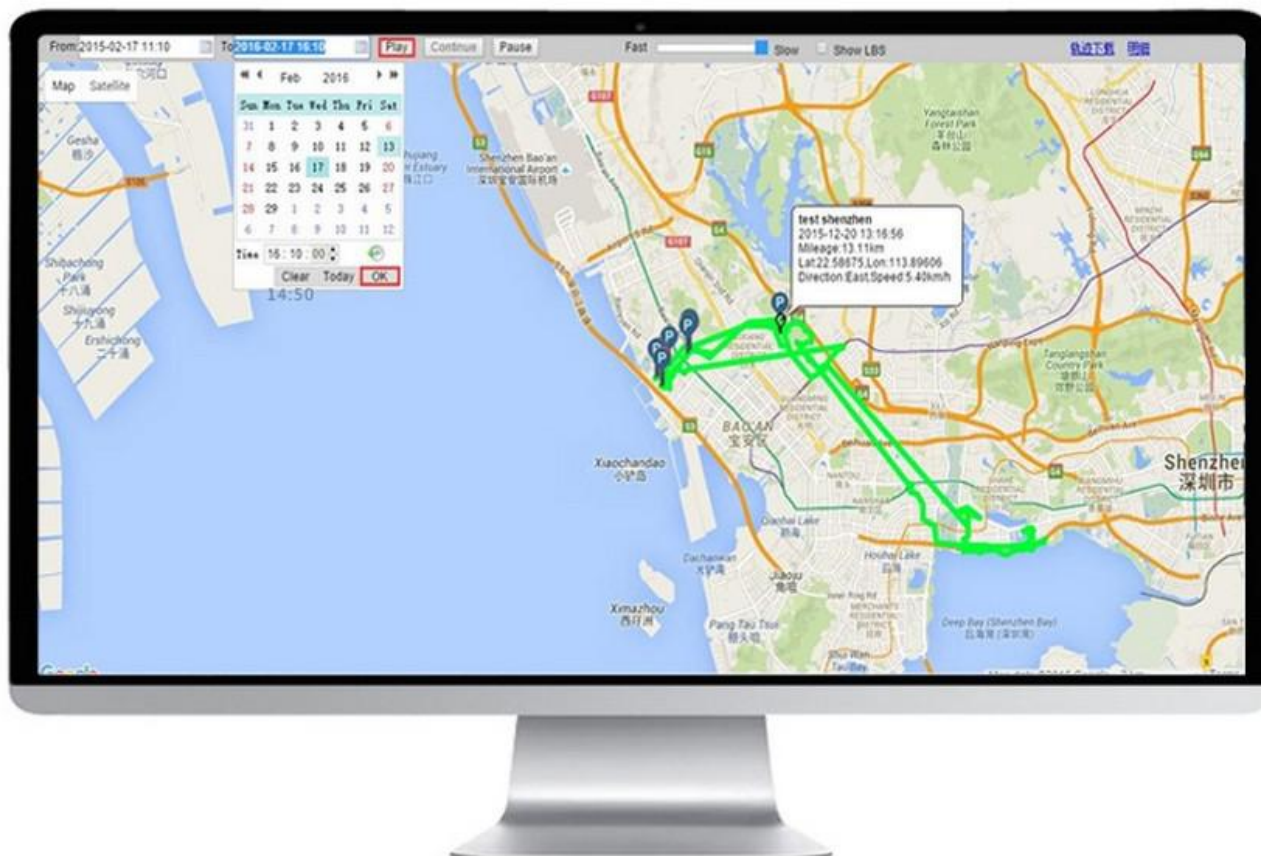

# 9

## Move History Replay

The latest 180 days' moving historical route can be replayed.

Historical Moving Route Replay on Computer Webpage Platform:

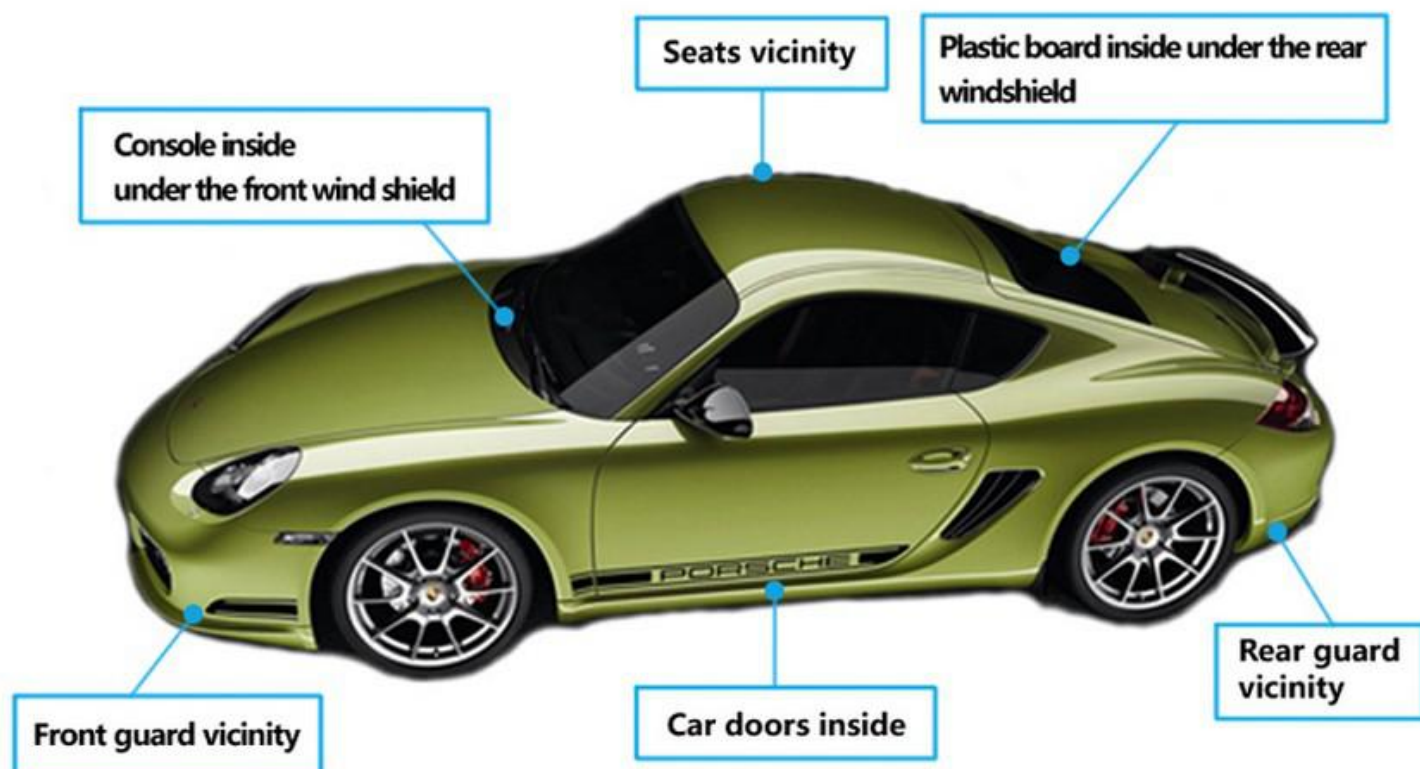

**Please Note:** Please ensure tracker's front will face up and won't be covered by metal.
